

# MARINA GARCIA

*Front-End Developer*

## PROFILE

Hi, I'm Marina, I have a bachelor's degree in Biochemical Engineer, but I've always been interested in the IT area. I am a responsible professional, eager for knowledge, improving and carrying out my daily activities correctly. Reach out to see how can make things happen.

SELF-LEARNING  
RESPONSABILITY  
PROBLEM SOLVING  
TEAM WORK  
PLANNING  
RESEARCH

ENGLISH LANGUAGE: B2

## ACHIEVEMENT

### FINALIST.- TALENT LAND HACKATHON 2019.

TRACK 19 SPONSORED BY BOSH. THE PROJECT WAS RELATED TO MAKING A CHATBOT AND CONNECTING TO AN API REST.

## EXPERIENCE

### LABORATORIA - GDL. 2019

## FRONT-END DEVELOPER

As part of my personal development in Laboratoria I created a few projects. One of them is "Burger Queen" which is a Restaurant's Single Page Application. It allows waitress to take customer orders (add and remove items, get the total account, add the date and the waitress name), also, on the kitchen side you can see and delete the orders. Tools used: React, Firebase, Git, and Bootstrap. To see my full project portfolio visit [marinaestefania.github.io/](https://marinaestefania.github.io/)

### UNIVERSIDAD TECMILENIO - GDL. 2019

## ASSOCIATE PROFESSOR OF MATHEMATICS

Responsibilities: learning the material, keeping up to date with the current advances, prepare class, grading, teaching, researching, staying in touch with my peers, and solve conflicts

### GOVERNMENT OF NAYARIT STATE - TEPIC. 2014-2018

## EVALUATOR

As an evaluator, I checked the Environmental Impact Manifestation documents about the effects that public or private projects could do to the environment and then I made a resolution about them. In order to complete that I have to do a lot of research to keep on date about the latest applicable legislation.

## ASSISTANT TO CHIEF OPERATIONS OFFICER

I was responsible for the Environment Auditory Program at Nayarit State Gubernment.

It is a voluntary program where the companies prove that they are up to date with the Environment regulation. My activities included strategic planning, personnel management, contact companies, send and get request.
